

Delaware River Basin (DRB) Project- Land Use Dynamics Watershed Identity and Scenario Development 2016 Workshop Agenda

10:30-10:45 **Introductions**

10:45-11:45 **Project Background/Introduction to Scenario Development**

Brief overview of the Delaware River Basin Project- Land Use Dynamics

Trends in the DRB: a historic look at population, employment, seasonal housing, and commuter flows

Introduction to the scenario development process

11:45-12:00 **Discussion**

Does the Delaware River Basin have a cohesive regional identity or fragmented identities?

How important is it to plan for the future by thinking about the whole watershed?

12:00-1:00 **Lunch**

1:00-2:30 **Scenario Development**

Participants will use SWOT analysis to consider current strengths and weaknesses within the DRB, and future opportunities and threats

Session 1: What do you value? What would you like to preserve? What are the current challenges and opportunities?

Session 2: What would you like to change? What are future challenges and opportunities?

2:30-3:00 **Wrap-Up**
